Bid# 727 – Introduction to Anatomy and Physiology (2000350- Anatomy and Physiology)

Bid Title: *Introduction to Anatomy and Physiology*, ©2024

1. How are both flexibility and student choices provided for the following presentation features in the instructional materials:

- Fonts:
  - Type and size.
  - Colors and background colors can be adjusted.

    - The platform does not provide an option within the platform to directly alter the type, size, or colors of the fonts and background, but custom stylesheets, third-party plugins, and browser extensions may be effective at changing the appearance of the type, size, and colors.
    - The platform does not provide an option within the platform to directly alter the contrast settings, but custom stylesheets, third-party plugins, and browser extensions may be effective at changing the contrast of on-screen elements.

- Background: High contrast color settings are available.
  - The platform does not provide an option within the platform to directly alter the contrast settings, but custom stylesheets, third-party plugins, and browser extensions may be effective at changing the contrast of on-screen elements.
- Text-to-speech tools
  - The platform does not provide text-to-speech, but is compatible with screen readers, third-party plugins, and browser extensions.
- All images have alt tags.
  - Images have appropriate text alternatives in accordance with accessibility best practices.
- All videos are captioned.
  - All videos provide closed captioning and transcripts in accordance with accessibility best practices.
- Text, image tags, and captioning sent to refreshable Braille displays.
  - While G-W does not independently evaluate the function of its products with refreshable Braille displays, properly configured assistive technologies will receive access to all text, images, and captioning for reading.

2. How are the following navigation features provided in the instructional materials:

- Non-text navigation elements (buttons, icons, etc.) can be adjusted in size
    - Non-text navigation elements are adjustable in size as a part of the browser's native zoom capability.
- All navigation elements and menu items have keyboard shortcuts.
    - All navigation elements and menu items are accessible by keyboard but may not have dedicated keyboard shortcuts.
- All navigation information can be sent to refreshable Braille displays.
    - While G-W does not independently evaluate the function of its products with refreshable Braille displays, properly configured assistive technologies will receive access to all navigational elements and interfaces.

3. How are the following study tools provided in the instructional materials:

- Highlighters are provided in the four standard colors (yellow, rose, green, blue).
- Highlighted text can be automatically extracted into another document.
- Note taking tools are available for students to write ideas online as they are processing curriculum content.

    - The platform does not offer highlighting or note-taking tools.

4. Which of the following assistive technology supports, by product name, have you tested for use with the instructional materials:

- Assistive technology software that can be run in the background. Examples include:
    - Magnification
        - We independently evaluate our content with Windows Magnifier and Chrome native browser zoom.
    - Text-to-speech
        - We independently evaluate our content with the NVDA screen reader.
    - Text-to-American Sign Language
        - We do not independently evaluate the function of our products with text-to-ASL capability.
    - On-screen keyboards
        - Our content has not been independently evaluated for on-screen keyboard functionality, but this could be done upon request.
    - Switch scanning controls
        - We do not independently evaluate the function of our products with switches.
    - Speech-to-text
        - We do not independently evaluate the function of our products with speech-to-text software.

5. For students with special needs who require paper materials based upon the IEP, how are the materials provided for students currently not able to access digital materials?

We meet all compliance standards with the National Instructional Materials Access Center (NIMAC) requirements for K-12 textbooks. We also partner with Bookshare, an accessible eBook library that offers our titles in a variety of formats for people with blindness, dyslexia, low vision, mobility impairment, and other reading barriers. Students can read G-W titles on the device of their choice using the accessibility features that works best for them. *Introduction to Anatomy and Physiology*, 2023 will soon be available on Bookshare.
