Course: Health Education
# Essential Health ©2018, 2nd Edition

**Essential Health** is the most up-to-date, skills-based text available for high school health and wellness classes. With its engaging writing and numerous supporting activities, this text presents the study of health and wellness as a dynamic discussion, relevant to students' lives. In addition to the standard topics, the text contains coverage of human trafficking, opioid use, and the new nutrition facts label. Content and skills are aligned to the National Health Education Standards.

Course: Information and Communication Technology
# Principles of Information Technology ©2017

**Principles of Information Technology** affords an opportunity to build and refine knowledge and skills in the IT world. This text is laid out in a logical, conceptual progression. The student begins by learning about the basic ins and outs of information technology, progresses to applications that will likely be used in the workplace, and finishes by learning about the interconnectivity that runs in daily life.

| Print and Digital Materials | ISBN | School Price |
