Analyze physical, emotional, social, moral and intellectual development.	6-10, 105–111, 114–115, 122–126, 130–135, 142–151, 157–164, 174–183, 191–199, 206–215, 222–234, 242–249, 251–262 268–273, 276–284, 290–299, 301–310
Assess the interrelationships among physical, emotional, social, and intellectual aspects of human growth and development.	10-17, 280-281
Examine brain structure and development over the lifespan.	107–108, 112, 153, 128, 185–186, 216, 250, 274, 299–300
Explore current and emerging research about human growth and development.	22-32, 38-41
Analyze services and supports available for positive developmental outcomes.	
Identify developmental delays and differences of individuals.	116-117
Identify services and supports needed when developmental milestones of individuals are not met.	1–2, 6–10, 117, 136, 165, 200
Examine school and community resources needed when developmental milestones of individuals are not met.	220
Compare and contrast screening practices that help to identify issues related to developmental milestones.	1-2, 6-10, 117, 136, 165, 200, 171
Analyze conditions that influence child growth and development.	
Investigate the effects of heredity and environment on prenatal and child growth and development.	32-33, 43, 72-74, 82
Theorize the effects of gender, ethnicity, and culture on child development.	46-50, 50-54, 163
Research how economic status influences development of an individual or family.	58-59
Assess the external factors that influence individuals.	
Examine the impact of social and technological forces on an individual's development.	135, 163, 198, 222-234, 231, 261, 282
Hypothesize the effects of experiences throughout the lifespan on an individual's physical, social, moral and emotional development.	9, 23-31, 114-115, 130-135, 157-164, 191-199, 222-234, 251-262, 301-310

Analyze the geographic, political, and global influences on human growth and development.	6-17, 53
Evaluate the impact of diverse perspectives, needs, and characteristics of individuals and families.	46-48, 52-63
Analyze the differences between socio-economic status amongst families and the role it plays in the development of the individual or family.	46-48, 52-63, 135, 163, 198, 231, 261, 282
Analyze the effects of family as a system on individuals and society.	
Evaluate the function of the family as the basic unit of society.	46-48, 52-63
Examine the role of family in teaching culture and traditions across the lifespan.	46-48, 52-63
Summarize the family's role in developing independence, interdependence, and commitment of family members.	46-48, 52-63
Analyze the effects of change and transitions.	46-48, 52-63
Compare and contrast parenting styles to examine the effect on development.	158
Analyze strategies to manage health and wellness.	
Develop a life plan, including pathways to acquiring the knowledge and skills need to achieve health and wellness goals.	243-244
Define goals for lifelong health and wellness.	243-244
Describe the various safety and sanitation practices necessary that promote health, wellness and safety.	333-334
Recognize potential stressors, responses to stress and healthy ways for managing stress.	198, 242
Identify the importance of physical activity over a lifespan.	71, 103, 146, 180, 209–210, 244–245, 270 294–295
Critique individual's and family's abilities to identify and manage resources and make decisions related to the impact on the individual and family wellness.	
Analyze the role of family and social services support systems in meeting human growth and development needs.	429-433
Evaluate potential areas of concern affecting family members wellness.	46-48, 52-63
Utilize the decision making process to resolve issues related to wellness.	46-48, 52-63
Identify external support systems for individuals and families.	429-433

Apply knowledge of lifespan development from developmental theories and principles of growth and development.	
Compare and contrast the intersection of developmental theories.	2, 22, 131
Investigate the impact of developmental theories across the lifespan.	2, 22, 24-26, 114, 130-131, 157, 191-192, 222, 253-255, 276-277, 302
Evaluate conditions that impact normal growth and development.	142, 156, 172, 180
Investigate issues that can hinder reaching developmental milestones.	116-117, 121, 137, 199
Examine educational, community, and governmental resources available to prevent developmental delays.	59-63, 116
Identify educational, community, and governmental resources available to address and improve developmental delays.	415-417
Identify policies and programs in a variety of sectors that positively or negatively influence health care, nutrition, education, child protection, and poverty.	284, 359
Explore brain research that determines how the early years of life provide a window of opportunity for ensuring a child's healthy development.	107-108, 112, 128, 153
Analyze ethical behaviors essential for working within human services careers.	
Apply the Code of Ethical Conduct set forth by the NOHS (National Organization for Human Services).	424-439
