The Nursing Assistant: Essentials of Holistic Care, Brief Edition presents key concepts and skills students need to become nursing assistants. With a sharp focus on holistic care, students learn how to provide safe, effective, and compassionate care, while integrating and considering residents' bodies, minds, and spirits. This concise text, **developed for classes with shorter hour requirements**, is accessible for students of all levels. Richly illustrated **step-by-step procedures** teach students how to perform the tasks required of nursing assistants and prepare them to pass the certification competency examination. The text and its supplements include **abundant reinforcement activities** and practice questions for the certification competency examination, challenging students to apply what they have learned and preparing them for success when taking the exam. Detailed **photographs, illustrations, and videos** bring concepts to life, helping students visualize and understand body positions, care procedures, and the structure of the human body.

CURRICULUM REQUIREMENTS		CORRELATING SECTIONS
1) Sixteen hours of training in the following areas before the nurse aide has any direct contact with a patient or resident:		
1A	Communication and interpersonal skills;	Section 12.1: Holistic Communication Section 12.2: Caring Skills and Interpersonal Relationships Section 12.3: Anxiety, Fear, Anger, and Conflict
