Scan and use the Promo Codes below. 

Course 1: Foundations of Healthcare Professions **Course 2: Essential Healthcare Practices**

Students Explore Healthcare Careers and Skills

Begin your program with two introductory health science courses paired with work-based learning projects. Activities consist of basic skills such as conducting vision screenings, vital signs, and blood pressures in various facilities like schools and nursing homes.

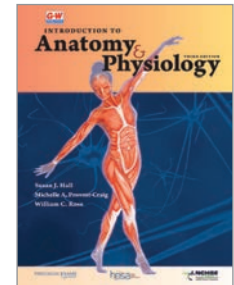

Promo Code: **NCHSE1** Promo Code: **NCHSE2**
Use either title or a combination for your first and second course.

Course 3: Human Structure, Function, and Disease A **Course 4: Human Structure, Function, and Disease B**

Students Begin to Focus on Specific Healthcare Pathways

Dive into anatomy & physiology while applying coursework into real-world, work-based opportunities, such as internships and apprenticeships.

Promo Code: **NCHSE3**

Stackable Student Certifications

- Corresponding health science certificates are available to ensure a well-prepared workforce and help educators show student growth and mastery of knowledge and skills throughout their programs.
- Students can receive a total of five certificates with a culminating end-of-program National Health Science Certificate (NHSC).
- G-W Health Science titles help prepare students for these certification exams.
