Lesson Plans

Outstanding teachers Linda Stanhope and Kimberly Turnbull have developed detailed lesson plans and creative handouts to accompany the textbook. There's no need to spend days recreating your course—Linda and Kim have done it for you.

ExamView® Test-Making Software

ExamView® software and questions make creating quizzes and tests fast and simple. Over 1,000 questions come with the ExamView® software, and you can add your own questions for a customized assessment. ExamView® can create different versions of the same test for you.

PowerPoint® Lectures

PowerPoint® presentations reinforce key concepts and engage students with interactive Remember This? and Your Turn slides.
The free and accessible Companion Website contains flash cards, animations, and vocabulary activities.

All resources are offered in multiple formats, including print, CDs, and online.
